Introduction to basketball program - Mini Hoops
Professional individual development programs
Weekly Ladies Daytime competition
Onsite sport specific physio

Basketball competition revenue alone generates **\$1.2m per annum** from existing facility.

Total organisation revenue **exceeds \$2m per annum.**

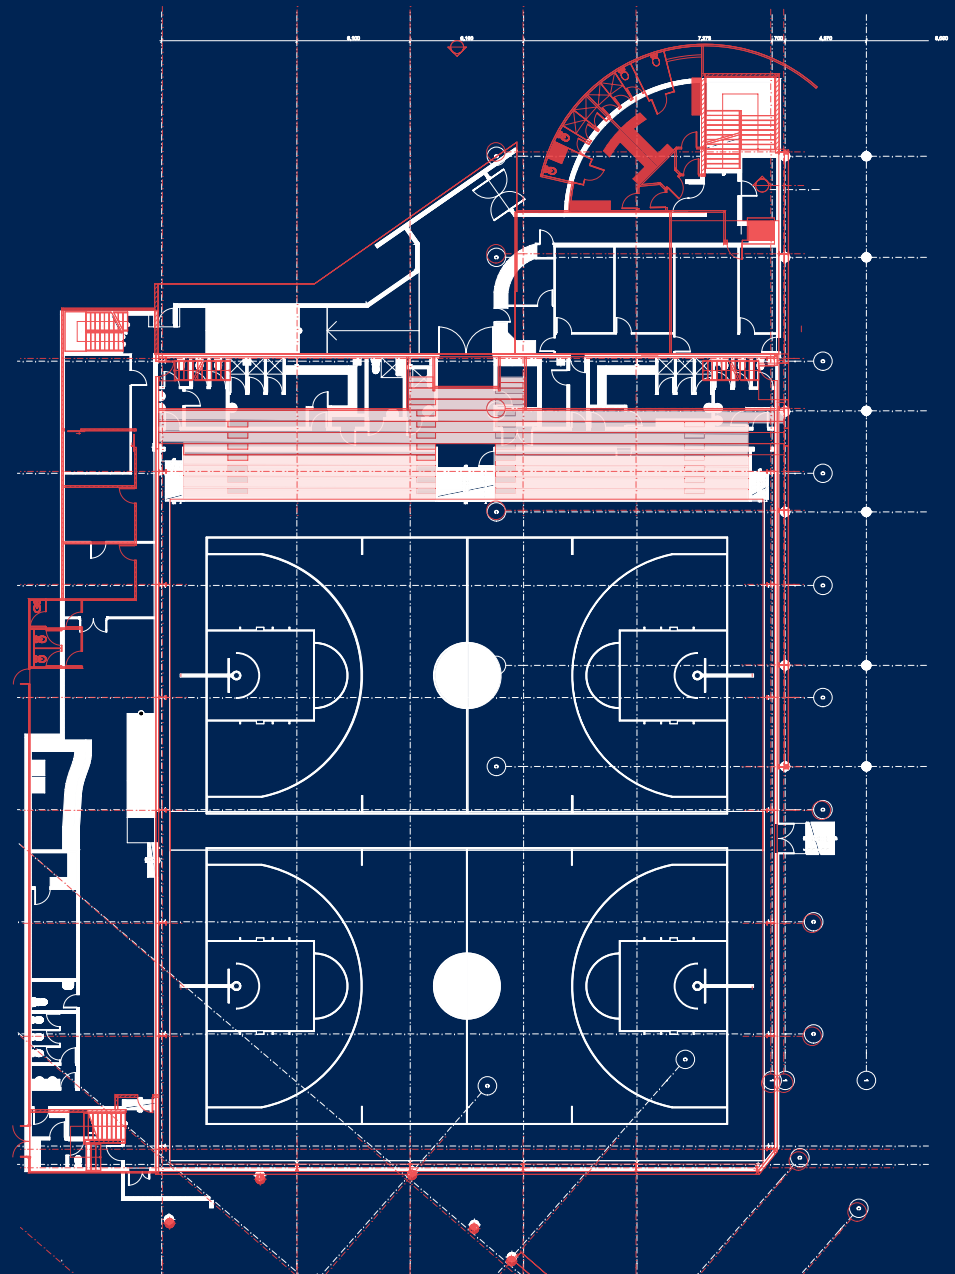

BBI **spends in excess of \$185k per annum** on additional 9 courts hire to cater for competition.

BBI has the financial capacity to be the primary anchor tenant of a Community Sports Centre.

FUTURE PROOFING OUR SPIRITUAL HOME

Following the **\$1.34m Federal and State Government funding announcement made on November 17, 2022**, **BBI is confidently advancing its venue redevelopment plans** to create a more resilient venue to reduce adverse impacts from any future weather events on Auchenflower Stadium.

Whilst these updates and planned works are great news for the home of BBI and the future proofing of the existing stadium; BBI remains steadfastly focused on addressing our current and expected future court shortfall and working with all tiers of government to secure additional basketball venues for inner city Brisbane.

BRISBANE BASKETBALL INC.

THE DRIVERS FOR A NEW STADIA

As Brisbane 2032 approaches, the city of Brisbane is presented with a **significant opportunity to address the shortfall** in accessibility to fit for purpose basketball infrastructure.

BBI has an **existing court shortfall of between 4 to 7 courts increasing to 5 to 8 courts by 2032**. This does not include a provision for latent demand that likely exists.

The Auchenflower Stadium has been **severely impacted by two serious flood events** in the last decade.

Basketball participation rates in Queensland are lower than NSW and Victoria. **Key findings from studies in NSW and Victoria found that the level of indoor court facilities in a location directly impacts on basketball registrations and participation levels.**

Brisbane is forgoing valuable opportunities to host major domestic and international events due to the **lack of an appropriate state level basketball facility.**

#WEAREBRISBANE

COMMUNITY SPORTS CENTRE

A FIT FOR PURPOSE FACILITY

A fit for purpose facility to address current court shortfall requirements whilst optimising potential for community outcomes.

- 12+ court venue
- Room for future expansion
- Office space for BBI and other sporting organisations.
- Opportunity for supplementary income i.e. allied health and corporate suites.
- A capacity of 3,000 spectators (retractable seating), enabling the venue to host regional and national events.
- A surface meeting the minimum standards for a range of sports, allowing for greater shared use.
- Flexible courts space allowing for multiple activities to occur at the same time.

COMMUNITY SPORTS CENTRE AN INCLUSIVE FACILITY FOR COMMUNITY BASKETBALL

Basketball is possibly Australia's most inclusive community sport. 28% of participants are multicultural, indigenous or play with a disability. A purpose-built facility would create a new pathway for wheelchair basketball and Indigenous Basketball in Brisbane.

BRISBANE BASKETBALL INC.

THE DRIVERS FOR A NEW STADIA

The indoor rectangular nature of a basketball stadium provides a practical participation use for many sports that can be **used for community competition right through to national and international standard competition.**

These sports include:

Table Tennis

Volleyball

Futsal

Netball

Badminton

Martial Arts

COMMUNITY SPORTS CENTRE

COMMUNITY ASSET UTILISATION

In addition to the various community sport utilisations; this Community Sports Centre could also host a variety of community activities including:

- Community events
- Exhibitions, meetings and functions
- Educational purposes (eg. exams) and events
- Health & wellbeing initiatives
- Youth vacation care programming

COMMERCIAL UTILISATION

Commercial tenancy space would be successfully monetised through acquisition of businesses as tenants that compliment the sport, health & wellbeing sector.

BBI would shift its administration to this Community Sports Centre.

Additional tenants might include the Brisbane Bullets and other business from the broader health & wellbeing industry.

INTERSTATE CASE STUDIES

VICTORIAN STATE BASKETBALL CENTRE

- Opened June 2012
- Basketball Australia, Basketball Victoria and Knox Basketball administration headquarters.
- Home court to the Melbourne Boomers WNBL team.
- South East Melbourne NBL team co-home court venue
- Show court - 3,200 seat capacity
- 6 additional courts (5 can be configured for netball)
- 1 smaller show court - 200 seat capacity
- Function facility for approximately 200 people
- Hosts community events including sport, school, exhibitions, functions and meetings
- In 2020, the Victorian Government committed a further \$130 million towards the expansion of the State Basketball Centre.

WA STATE BASKETBALL CENTRE

- Opened January 2010
- Co-managed by Basketball WA and Venues West.
- Basketball WA administration headquarters.
- Home court to the Perth Lynx WNBL team.
- Perth Wildcats NBL team training base and administration.
- 2 show courts - 2,000 seat capacity
- 6 additional courts with an additional seat capacity of 600.
- Function facility for up to 270 people.
- Hosts basketball, netball, badminton and volleyball community competitions.
- Level 1 corporate office suites.
- Naming rights sponsorship support provided by Perth

TRARALGON BASKETBALL CENTRE

- Opened August 2020
- \$19m redevelopment to create a 3,000 seat Show Court and 4 additional courts; creating a 9 court facility.
- Compliant with international standards to host elite sport for various indoor sports including basketball, netball, volleyball, racquet sports and table tennis.
- Gipp Sport administration headquarters.
- Function facilities.
- Regional population 26,000
